

COVID-19 UPDATE  
3<sup>rd</sup> August 2020

Good morning All,

I am pleased to report again that to date we remain with nil COVID-19 cases within our operations nationally. Your ongoing proactive support, combined with our tight control measures and the tremendous engagement of our employees, continues to underpin this achievement.

You would be aware of the new restrictions imposed by the Victorian Government yesterday relating to Stage 4 (Melbourne Metropolitan) and Stage 3 (All other areas) that are now in place.

For Melbourne metropolitan areas this now includes a curfew related to people not being allowed to leave home (unless for medical /caregivers reasons) between the hours of 8pm- 5am and further restrictions per the four reasons you are permitted to leave home be that for work, food, medical and exercise. Food and exercise are now restricted to once a day up to a maximum of 1 hour.

We expect that the Victorian Government will announce later today additional work related restrictions. As explained by the Victorian Government these further restrictions will be applied to assist with the management of the COVID-19 pandemic, and specifically reduce community based transmissions.

We are closely monitoring these updates and will provide you, when available, specific detail as to what this means to our Victorian operations, and your role.

Until further announcements are made we will continue to operate as per our existing new normal.

If you have any queries please contact your immediate supervisor or HR.

Yours Sincerely,

**Paul Sarant**  
Managing Director / CEO  
K&S Corporation Ltd
