

COVID-19 UPDATE
30 June 2020

All,

Consequent to a significant amount of effort by everyone within our group, at this stage we remain with nil confirmed COVID-19 cases and have been able to continue all operations.

While we have nil cases within our business, I am sure that everyone is aware of the current increasing COVID-19 new cases within our communities, illustrating to us all that this pandemic particularly in Victoria is not yet controlled.

I think it would be fair to say that the initial downward trend provided us with all with the belief that the risk of contracting COVID-19 was reducing. Unfortunately, the reality is the recent COVID-19 community-based increases serve to highlight that the risk of contracting COVID-19 remains very real.

Over the last few weeks we have experienced an easing of restrictions in some states or territories, whilst others have retracted the same due to the recent trends. Of particular concern within Victoria and NSW is the spread of COVID-19 across a number of specific suburbs.

It is of vital importance we remain vigilant with our personal and equipment hygiene, social distancing requirements at work and at home, and if you are unwell with cold / flu / COVID-19 symptoms do not attend work and seek medical advice.

I also encourage you to reassess your personal actions to ensure we all continue to protect each other, our families and our business from this ongoing pandemic that we must rid ourselves of.

Again, I thank you for your support during this trying time.

Stay safe,

Paul Sarant
Managing Director / CEO
K&S Corporation Ltd
