

COVID-19 UPDATE
27 July 2020

All,

I am pleased I can again report to you that nationally to date we have nil COVID-19 cases in our company. My sincere thanks to everyone for your continued co-operation, vigilance and adherence to our safety and risk management plans, that are fundamental to this achievement.

Across the nation, with the exception of the Melbourne and the Mitchell Shire regions, restrictions have been eased subject to respective state-based requirements, COVID-19 cases and the management of the same.

Due to the number of current COVID-19 cases in Melbourne and the Mitchell Shire regions, we are currently in reimposed Stage 3 restrictions with the mandatory wearing of face masks applicable from midnight 23rd July 2020. Whilst these recent restrictions and new PPE requirements provide further challenges within our some of our operations, they are absolutely necessary to assist in the control of COVID-19.

Border control restrictions continue to provide ongoing challenges within our operations, as state-based control measures change on a regular basis, particularly impacting our Vic/NSW regional operations for people attending work on a daily basis. Thank you for your persistence and patience with this current situation.

While the recent COVID-19 case numbers and imposed controls have resulted in a setback particularly for Melbourne residents, we must continue to optimistically look forward to an improved future and ultimate return to a pre COVID-19 lifestyle.

I urge you all to continue to vigilantly manage the health and safety of yourself, each other, your family and loved ones during this trying and challenging time. The better we do this now, the quicker we can recover.

Again, thanks for your help so far and stay safe.

Yours Sincerely,

Paul Sarant
Managing Director / CEO
K&S Corporation Ltd
